

Vending Machine Tips

When you're buying something from a vending machine, ask yourself:

- Does this machine accept **coins, bills, or both**?
 - What do I want to buy?
 - Where are the **prices** printed on this machine?
 - How much does my snack or drink **cost**?
 - Do I have to **punch in a code** to get the item?
 - Do I have **exact change**, or should I put in **more** than the item costs?
 - If I put in more than the item cost, did I remember to take my change from the **coin slot**?
- * Vending machines aren't all the same, but they all work in a **similar** way. You can use these steps even if the vending machine looks a little bit **different**.
