

Check Your Receipt

To check your receipt:

- Move away from the cash register to a **low traffic area**, where you won't be in the way of other **customers**.

Ask yourself:

- How many **items** are on the receipt? Does it **match** the number of items I have in my cart?
- Did anything get **scanned twice** by mistake?
- Did I get charged the right price for things that were **on sale**?
- Are there any charges here that I **wasn't expecting**?
- Did I get the right amount of money off for **coupons**?
- Did I get the right amount of **change** back?
