

Reading Bills Tips

When you're reading a bill or bank statement, ask yourself:

- Where's my **account number**? It's usually at the top of the page.
- How much is the **current amount due**, or the amount I have to pay now?
- When is the **due date**, or the date I have to pay the bill by?
- Is there a **payment coupon** for me to send in with my payment?
- Where should I send this payment? Can I pay it **online**?
- Is there any money that's **past due**, that I should have paid earlier but didn't?
